CAREER OBJECTIVE

Aspiring software developer with a strong foundation in the MERN stack, a keen interest in full-stack development, and a commitment to continuous learning. Seeking an entry-level position where I can apply my skills in web development, problem-solving, and teamwork to contribute effectively to a dynamic tech environment and grow as a professional.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL (PostgreSQL), Core Java, HTML/CSS
Frameworks: React, Node.js, Express.js
Databases: MySQL, MongoDB
Developer Tools: Git, Docker, Postman, VS Code, IntelliJ
Libraries: Tailwind CSS, Redux, Zustand, Context API, Bootstrap
Soft Skills: Communication, Problem-Solving, Teamwork

PROJECTS

- Campus Diary** | *Android Studio, Kotlin, Material-3, Firebase, Node.js, EJS* October 2023
- Created a social media app specifically designed for campus communities, enhancing student engagement and interaction.
 - Utilized Kotlin for the Android app and Node.js for the admin website to ensure efficient performance and scalability.
 - Implemented Firebase Firestore as the backend database to securely store and manage user data, posts, and interactions.
 - Enabled real-time notifications for users within the app to improve engagement and provide timely updates for campus events.
- Make A Tour** | *PHP, Bootstrap, MySQL, XAMPP* March 2024
- Built a comprehensive web-based application to manage tour bookings, enhance customer experience, and streamline tourism operations.
 - Leveraged PHP for server-side scripting and MySQL for database management to ensure smooth and reliable data storage and retrieval.
 - Designed an intuitive interface that simplified navigation and accessibility for end-users.
 - Ensured cross-device compatibility with a responsive design that adapts seamlessly to desktops, tablets, and mobile devices.
- GupShup** | *MERN Stack, WebSocket, Daizzy UI* October 2024
- Developed a real-time chatting application enabling users to interact live using WebSocket for seamless communication.
 - Implemented the MERN stack (MongoDB, Express.js, React, Node.js) for both the frontend and backend to ensure robust and scalable functionality.
 - Integrated WebSocket for live messaging, providing instant chat updates without page refresh.

EDUCATION

Mumbai University	Mumbai, Maharashtra
<i>Bachelor of Science in Computer Science (CGPA: 9.23)</i>	<i>May 2024</i>
Higher Secondary Certificate (HSC)	Maharashtra State Board
<i>Percentage: 70.83%</i>	<i>February 2021</i>
Secondary School Certificate (SSC)	Maharashtra State Board
<i>Percentage: 76.40%</i>	<i>March 2019</i>

CERTIFICATIONS

The Complete 2024 Web Development Bootcamp - Dr. Angela Yu
Frontend Developer (React) Certificate
MongoDB Node.js Developer Path
Postman API Fundamentals Student Expert
Responsive Web Design Certification
